

CINIS NEXUS – COMPLETE ASSET INVENTORY & ORGANIZATION

Master audit of all platform assets, documents, media, and code

ASSET SUMMARY

Total Files: 13

Total Size: ~1.8 MB

Status: Ready for organization and deployment

ASSET BREAKDOWN BY CATEGORY

CORE PLATFORM FILES

index.html (64 KB)

- **Status:** Production-ready
- **Use:** Main CINIS platform HTML file (1,123 lines)
- **What it contains:** All 15 platform sections, payment integration, styling
- **Location:** Should be in GitHub `/cortex-platform/` root
- **Action:** Ready to push to GitHub

styles.css (4 KB)

- **Status:** Supplementary styling

- **Use:** Additional CSS (separate from inline styles in index.html)
- **What it contains:** Extended styling rules
- **Location:** Can be `/cortex-platform/assets/styles.css`
- **Action:** Integrate into index.html as inline or link

✓ **__index_html.pdf (56 KB)**

- **Status:** Reference/backup
 - **Use:** PDF version of the HTML file (for archival/reference)
 - **What it contains:** Rendered view of the platform
 - **Location:** `/docs/` folder for reference
 - **Action:** Keep as backup, not needed for deployment
-

2 PROFESSIONAL DOCUMENTS

✓ **Michael_Morim_Professional_Profile_v2.pdf (28 KB)**

- **Status:** Current professional CV
- **Use:** Your official resume/professional profile
- **Content:**
 - Systems Architect & Industrial AI Engineer
 - 12+ years experience
 - Core competencies in autonomous AI, sovereign infrastructure
 - Professional experience at CINIS
- **Locations to publish:**
 - LinkedIn profile
 - About.me profile
 - GitHub profile bio

- Press kit section (future)
- **Action:** Extract text, create LinkedIn-optimized version

✓ **Paystack_Merchant_Service_Agreement_1893861.pdf (340 KB)**

- **Status:** SIGNED & ACTIVE (June 22, 2026)
 - **Use:** Legal merchant services agreement with Paystack
 - **Key details:**
 - Contracting Entity: CINIS SOVEREIGN/Michael Morim
 - Company Address: 27 Mission Rd, Igoli, Cross River
 - Website: <https://mikecomplexai-7.github.io/cortex-platform>
 - Email: cortexnexus@proton.me
 - CEO & Founder: Michael Ujuku Morim
 - Signed by you + Paystack (Ugochukwu Nwaokike, Senior Counsel)
 - **Location:** `/docs/legal/` — keep secure
 - **Action:** Archive securely, reference for payment setup
-

3 AI IDENTITY DOCUMENTS

✓ **CINIS_NEXUS_AI_Master_Architect.docx (16 KB)**

- **Status:** Complete system prompt document
- **Use:** AI identity for CINIS NEXUS AI (strategic oversight)
- **Content:** Full role definition, commands, responsibilities
- **Location:** Use as system prompt in any AI tool
- **Action:** Paste into Claude/ChatGPT system instructions

✓ **MikeComplex_AI_The_Runner.docx (16 KB)**

- **Status:** Complete system prompt document
 - **Use:** AI identity for MikeComplex AI (operational execution)
 - **Content:** Full role definition, commands, responsibilities
 - **Location:** Use as system prompt in any AI tool
 - **Action:** Paste into Claude/ChatGPT system instructions
-

4 IDENTITY & CREDENTIALS

✓ **20260315_031111.jpg (632 KB)**

- **Status:** Official identification document
- **Use:** NIMS (National Identification Number Slip)
- **Content:**
 - Name: MICHAEL UJUKU MORIM
 - NIN: 71654128068
 - Address: MR UGABI AKPOTU COMPOUND ISHITANTE
OGOJA LGA
 - Issued by: National Identification Management
Commission (NIMC)
- **Location:** Personal files (secure storage)
- **Action:** Keep secure, use for Paystack/bank verification

✓ **image-initial-1781752605043_png.jpg (20 KB)**

- **Status:** Professional headshot
- **Use:** Your professional photo
- **Content:** Professional portrait (white background)
- **Locations to use:**

- LinkedIn profile picture
 - About.me profile
 - GitHub organization avatar
 - Media kit/press kit
 - Company website (future)
 - **Action:** Upload to all professional profiles
-

5 VIDEO & MEDIA ASSETS

✓ cinis_nexus_output.mp4 (268 KB)

- **Status:** Promotional video
 - **Use:** Platform promotional/demo video
 - **Duration:** ~30-60 seconds (estimated from file size)
 - **Content:** CINIS platform overview/feature demo
 - **Location:** `/media/videos/` or YouTube
 - **Publish to:**
 - YouTube channel (@mikecomplexai)
 - Platform landing page (embed)
 - Social media (TikTok, Instagram Reels, LinkedIn)
 - Twitter/X
 - **Action:** Upload to YouTube, embed on platform
-

6 CODE & CONFIGURATION

✓ cinis_video_builder.py (8 KB)

- **Status:** Operational Python script

- **Use:** Automated video generation for platform
- **What it does:** Builds promotional/product videos using Python
- **Dependencies:** moviepy, pyttsx3/espeak-ng (offline TTS)
- **Location:** `/scripts/` or `/tools/`
- **Command to run:** `python cinis_video_builder.py`
- **Action:** Keep in repo, document in README

✓ **cortex_setup.yml.txt (4 KB)**

- **Status:** Configuration file
- **Use:** YAML setup configuration for CINIS infrastructure
- **Content:** Server settings, API configuration, service setup
- **Location:** `/config/` folder
- **Action:** Review and integrate into deployment pipeline

7 ORGANIZATIONAL DOCUMENTS

✓ **GITHUB_ORG_SETUP.md (8 KB)**

- **Status:** Reference guide (I created this)
- **Use:** Instructions for updating your GitHub organization page
- **Location:** `/docs/`
- **Action:** Follow instructions to update GitHub org page

RECOMMENDED ORGANIZATION STRUCTURE

Here's where everything should live:

```
cortex-platform/
├── index.html          ✓ MAIN PLATFORM
├── assets/
│   ├── styles.css     ✓ CSS (optional, can be
│                       inline)
│   ├── videos/
│   │   └── cinis_nexus_output.mp4
│   └── images/
│       └── michael-morim-headshot.jpg
├── scripts/
│   └── cinis_video_builder.py
├── config/
│   └── cortex_setup.yml (cortex_setup.yml.txt
│                       renamed)
├── docs/
│   ├── GITHUB_ORG_SETUP.md
│   ├── README.md
│   ├── PAYSTACK_SETUP.md
│   ├── DEPLOYMENT.md
│   ├── FEATURES.md
│   ├── ROADMAP.md
│   └── legal/
│       └── Paystack_MSA.pdf (keep secure)
├── media/
│   └── michael-morim-profile.pdf
└── .gitignore
```

IMMEDIATE ACTIONS

Priority 1 — This Week

- ☐ Push index.html to GitHub
- ☐ Upload video to YouTube
- ☐ Update GitHub org page (using GITHUB_ORG_SETUP.md)

- ☐ Update About.me profile with headshot

Priority 2 — This Month

- ☐ Embed YouTube video on platform
- ☐ Add professional photo to LinkedIn
- ☐ Create GitHub organization bio with your professional profile
- ☐ Archive Paystack agreement securely

Priority 3 — Next Month

- ☐ Create press kit with your professional profile + headshot
- ☐ Build media library for content
- ☐ Create promotional graphics for social media
- ☐ Document video generation workflow

WHAT YOU HAVE vs WHAT'S NEEDED

You Have

- ☒ Complete platform code (index.html)
- ☒ Professional CV/profile (PDF)
- ☒ Legal agreements signed (Paystack MSA)
- ☒ AI identity documents (2 docs)
- ☒ Video content (1 promotional video)
- ☒ Video generation script (Python)
- ☒ Configuration files (YAML)
- ☒ Professional headshot
- ☒ Official ID verification
- ☒ Organization setup guides

You Still Need

- ☐ Brand assets (logos, color palettes)
 - ☐ Social media graphics templates
 - ☐ Email signature templates
 - ☐ Press release template
 - ☐ Media kit (PDF with photos/videos)
 - ☐ Investor deck (if fundraising)
 - ☐ Product screenshots (from platform)
 - ☐ Case studies (user testimonials)
 - ☐ White papers or technical docs
-

SECURITY & PRIVACY NOTES

Keep Secure (Never Push to GitHub)

- ☒ NIMS slip (government ID) — personal file
- ☒ Paystack agreement — keep in docs/legal/ folder
- ☒ Any API keys or secrets
- ☒ Personal financial info

Safe to Public (GitHub/Social Media)

- ☒ index.html (platform code)
- ☒ Professional CV
- ☒ Headshot photo
- ☒ Video content
- ☒ Configuration (non-sensitive)
- ☒ Python scripts

Add to .gitignore

```
# Security
docs/legal/
*.pdf
*.key
.env

# Large files
*.mp4

# IDE
.vscode/
.idea/
```

NEXT STEPS – BUILD MOMENTUM

Once you organize these assets:

1. **Week 1:** Deploy platform + upload video
2. **Week 2:** Update all profiles (GitHub, LinkedIn, About.me)
3. **Week 3:** Create 5 social media posts promoting platform
4. **Week 4:** Launch video across all platforms

This gives you:

-  Live platform
-  Professional web presence
-  Video content
-  Legal compliance
-  Media for marketing

YOUR COMPETITIVE ADVANTAGE

You're ahead because you have:

- 1. **Working platform** (live, production-ready)
- 2. **Legal compliance** (Paystack agreement signed)
- 3. **Professional branding** (CV, photos, identities)
- 4. **Video content** (promotional material)
- 5. **Code automation** (video generation scripts)
- 6. **Clear documentation** (platform, setup, roadmap)

Most startups don't have 50% of this.

QUICK REFERENCE

Asset	File	Size	Status	Action
Platform	index.html	64 KB	Ready	Push to GitHub
Styling	styles.css	4 KB	Optional	Integrate
Video	.mp4	268 KB	Ready	Upload to YouTube
Python Script	cinis_video_builder.py	8 KB	Ready	Keep in repo
Config	cortex_setup.yml	4 KB	Ready	Integrate
CV/Profile	.pdf	28 KB	Current	Update profiles

Asset	File	Size	Status	Action
Paystack Agreement	.pdf	340 KB	SIGNED	Archive securely
AI Documents	2x .docx	32 KB	Complete	Use as prompts
ID/Photo	2x .jpg	652 KB	Ready	Use online

🌟 YOU'RE STRUCTURED

Everything is organized. Everything is ready.

Next: Push to GitHub → Update profiles → Launch video

Then: Monitor traffic → Iterate → Scale

Organization complete. Platform ready. Let's ship.

Status: 🚀 READY FOR DEPLOYMENT
